

COMPANY OVERVIEW

ALL ENERGY WEST AFRICA NIGERIA LIMITED (AEWA)

History And Genesis Of All Energy West Africa

2011

Company Founded

Alessandro BARABINO, a former Intel employee since 1985, founded the Company.

2013

Operations Launched

Started manpower operation and technical assistant service with Total and Lafarge and developed on these opportunities. Acquisition of 33% of RFTS NDT Solutions.

2014

Partnership Expansion

Acquisition of an additional long-term contract with Total and Saipem. A 51/49 % partnership was created with Corialis, a leading French recruitment outfit specialized in providing technical expertise to French IOC and contractors in West Africa. Partnership with DAVI was also born

2017

Strategic Refocus

Corialis was sold to the AKKA group (now AKKODIS ADECCO), and AEWA decided to continue focusing on developing the West African market

2019

Leadership Growth

AEWA continued to expand its expertise and reach, bringing Adebisi OTUKOYA as a partner, leveraging his experience from Total Energies

2022

Investment Phase

AEWA made additional investments, a new GM was appointed to scale operations and reach additional clients and expand the scope of work and activities.

2024/25

Technical Support Unit Established

AEWA was restructured and fitted-for-purpose to navigate the complexities of Oil & Gas activities in Nigeria by establishing a new Technical Support Business Unit. This unit, headed by former Executive Directors of IOCs, brings a unique and deep expertise in drilling, subsurface, engineering, commissioning, hookup etc. to provide dedicated high skill services to Indigenous Oil Companies and the Oil & Gas Industry in general.

History And Genesis Of All Energy West Africa

WHO WE ARE

All Energy West Africa Nigeria Limited (AEWA) is a trusted provider of integrated workforce, technical, and operational support services across the Oil & Gas, Energy, Infrastructure, and Industrial sectors in Nigeria and West Africa. Since 2011, we have built a reputation for delivering quality, compliance, and performance to IOCs, EPCs, and global partners.

WHAT WE DO

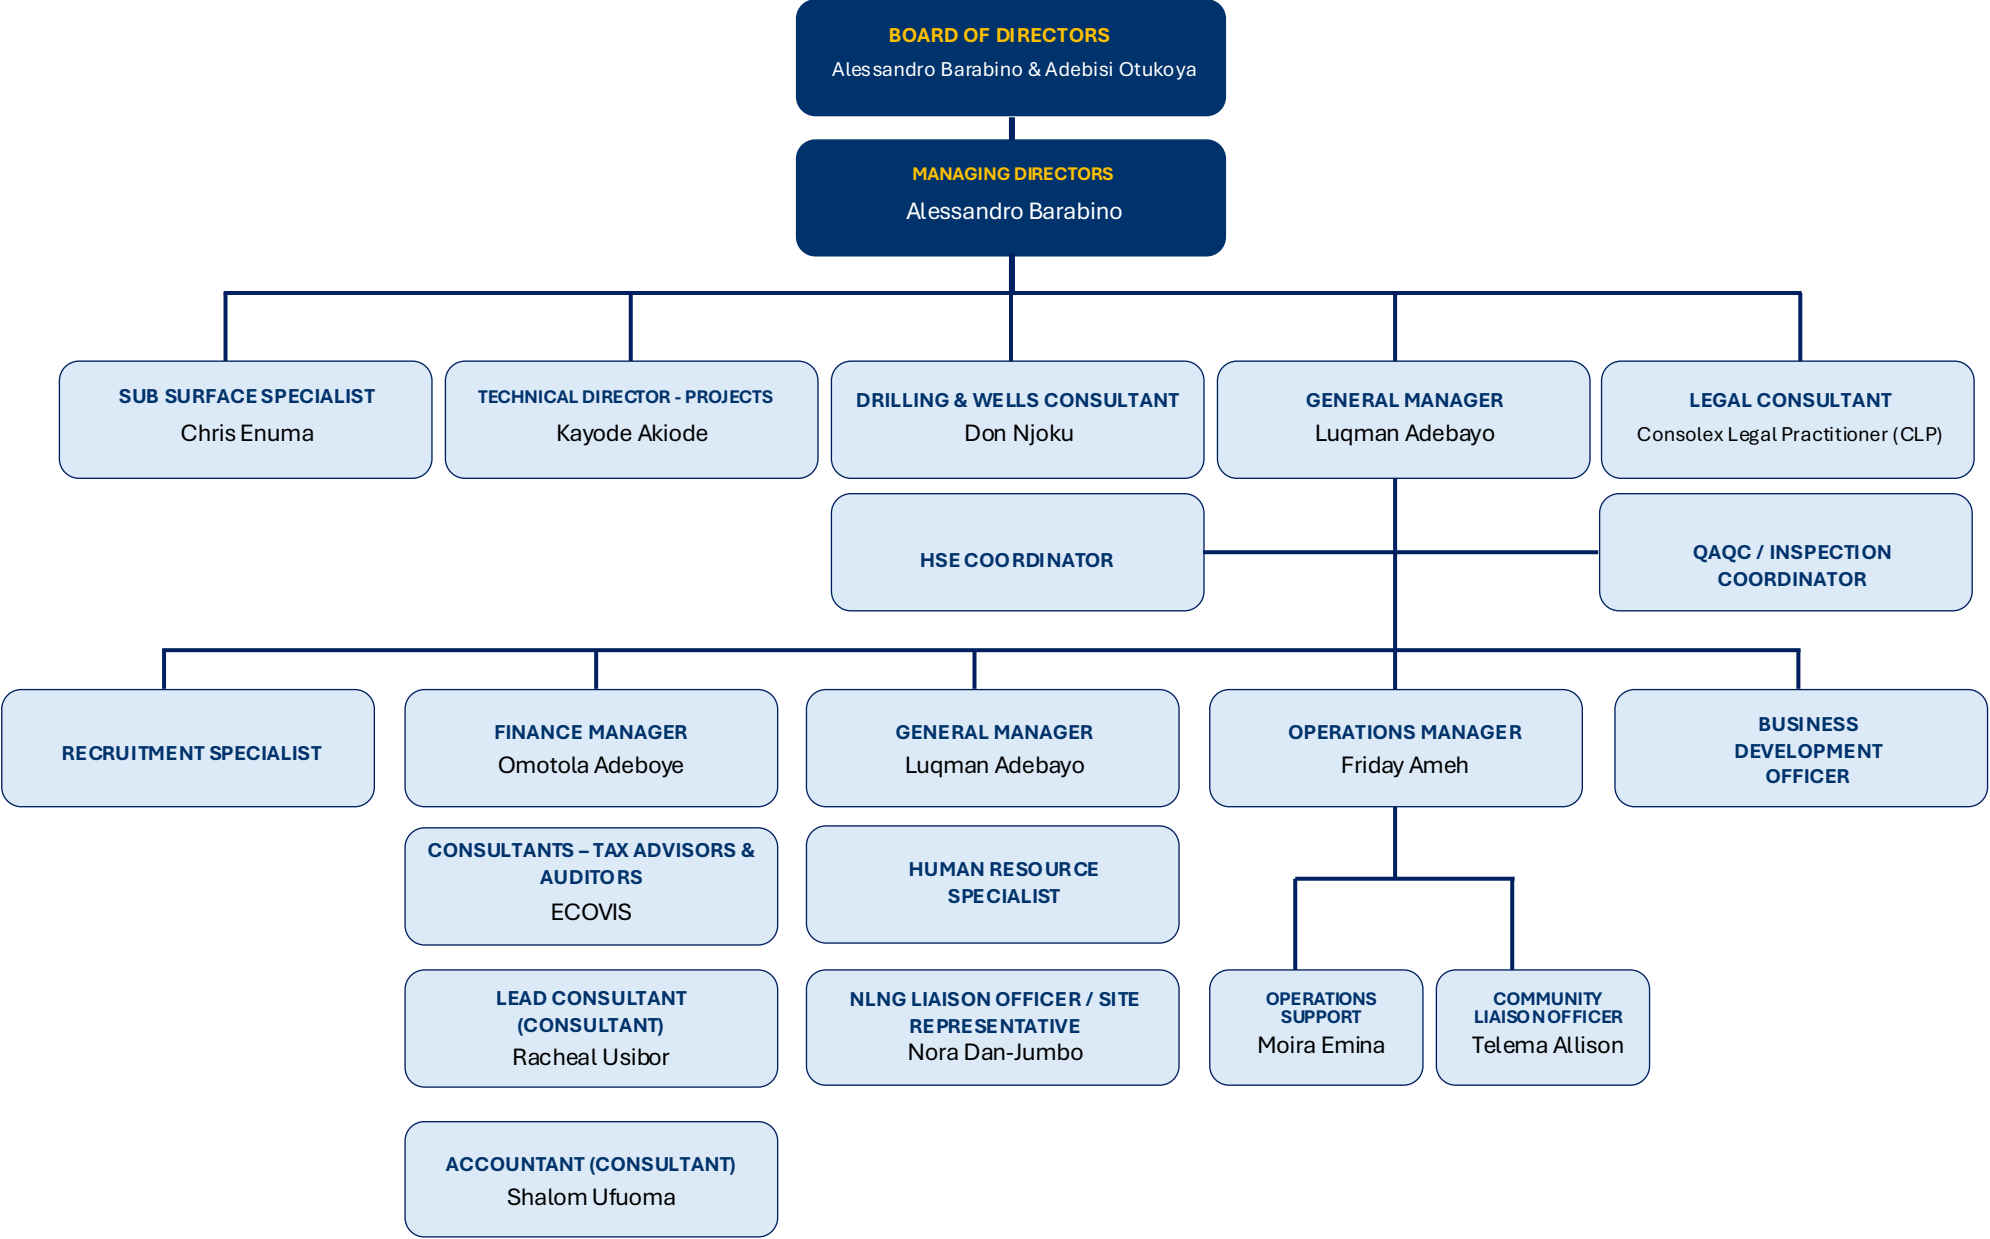

We support all phases of project development—from feasibility and engineering to construction, operations, and maintenance. AEWA operates with full statutory compliance and a strong commitment to HSE standards in every service we provide.

- Technical Recruitment & Manpower Solutions
- Skilled Trades Deployment
- QA/QC & Technical Inspection Services
- Offshore Crew & Manning Services
- Expatriate Work Permit & Administrative Support
- Payroll & Compliance Management

Technical Solutions: Integrated engineering, drilling, construction, commissioning, and project management services.

All Energy West Africa Leadership Team & Structure

Range of Services

01

Technical Recruitment & Manpower Solutions

We deliver high-performance workforce solutions across Oil & Gas, EPCM, power, infrastructure, and industrial sectors. From feasibility to commissioning, we deploy skilled, semi-skilled, and unskilled personnel both local and expatriate; ensuring the right talent is on ground, on time, and aligned with your project goals.

02

Skilled Trades Deployment

Our pool of certified artisans and technicians including welders, electricians, riggers, scaffolders, and equipment operators are project-ready and safety compliant. We support fabrication, construction, shutdowns, maintenance, and offshore/onshore operations with reliable, experienced hands.

03

Expatriate Work Permit & Administrative Support

We handle the full lifecycle of expatriate engagement in Nigeria from work permits and visas to quotas, payroll, tax compliance, medicals, and repatriation. Our end-to-end support ensures seamless onboarding and strict adherence to regulatory requirements.

04

QA/QC & Technical Inspection Services

We provide certified QA/QC professionals to safeguard quality and compliance across engineering and construction projects. Our services include NDT, welding inspections, FAT/SAT, third-party audits, and in-service inspections ensuring your assets meet global standards at every stage.

05

Offshore Crew & Manning Services

From offshore crew supply and rotation management, we support both operational and strategic workforce needs. We combine precision, and discretion to help you build and manage high-performing teams.

06

Payroll & Compliance Management

We handle payroll processing, statutory deductions, and regulatory reporting with precision and confidentiality. Our service ensures your workforce is paid accurately and your organization remains fully compliant with all legal requirements.

Specialized technical delivery, on demand

- 01** Delivery of specialized technical solutions on engineering, subsurface, drilling, construction installation, pre commissioning and hook-up studies and project management.
- 02** Delivery of dedicated Team to Client project organization for subsurface, drilling, construction installation, pre commissioning and hook-up phases.
- 03** Delivery of Specialized Dedicated Technicians covering all range of projects delivery.
- 04** Complement and enhance Client Organogram during crucial project phases.
- 05** Proposing door to door solutions for specialized equipment to be integrated with client existing facilities.
- 06** One stop-shop for enabling a fast and professional approach to your project demands.

ExxonMobil

AEWA Customer Experience Relationship – Few Highlights

Provision of Senior Engineering Team

Manpower, Compliance & Consultancy Services

Provision of refinery workers, technicians and operators at the Refinery

Provision of Payroll services

- **Longest term contract in hands – since 2013**
- Participated in all major projects since 2013 till date
- Providing Engineering and Supervision, Provision of Manpower Supply, and Project Management Service
- Very good relationship with all Departments and projects
- Exhaustive list of projects involvement such as Usan, Akpo, Ofon, Egina, OML 58, Ikike and Ubeta
- Presently support personnel in Techlog, TAS and Ubeta
- Providing more than 10 senior positions and dozens of Engineers, technicians and administrative positions

AEWA Customer Experience Relationship – Few Highlights

ExxonMobil

Usan HES management and supervision

Operating since 2014 and engaged in Egina project
NLNG Train 7 construction – provision of Engineers
Provision of field engineers and engineering services (Nigerians and Expatriates)

Provision of dedicated high skilled technician in Holland during construction phase of swivel for Egina offload buoy and subsequent installation in Aveon yard PHC – Quality and Inspection Services

Provision of Engineering Support

- Call off contract Project Support Services for the expansion of NLG terminal
- Community Engagement & Interface Services for Bonny CHO, JTS Communities
- Senior Government Relations Support Services
- Senior Community Liaison Officer

AEWA Customer Experience Relationship – Few Highlights

 ExxonMobil

Technical assistance and consultancy services for Ashaka Cement Factory – Construction and supervision

Provision of Work Visa, payroll and management services

Head-Hunting Services

Provision of manpower for construction and associated services

- Recruitment and Head-Hunting Services for hospitality industry

AEWA's Energy & Industrial Project Phases Support

Our consultants and technicians' capabilities and qualifications cover all Project phases from preliminary logistic study and feasibility analysis through Bid package preparation and evaluation, basic engineering, detailed engineering, procurement, fabrication, construction and commissioning up to maintenance and operations.

Feasibility	Basic Engineering	Front End Engineering	Detailed Engineering	Construction Management	Operating Plant
• FEL I • Owner's Engineer • Scoping Studies • Site Surveys • Test Runs • Plot Plan Development • Licensor Evaluations • Business Case Analysis	• FEL II • DBM • PDP • BEP • Extended PDP • Pre-FEED • Open-Art Design • Licensor Interface • Supervisory Operating Manuals	• FEL III • EDS • FEED • OSBL Definition • Long Lead Equipment • Detailed MTOs • TIC Estimates • ITB for EPC	• FEED Verifications • Detailed Designs • 3D Models • Requisitioning • Procurement/ Subcontracts • Vendor Selection • Operator Training	• Home Office Construction Support • Field Engineering • Material Management Support • Commissioning • Start-up Services	• Operations Support • Test Runs • Benchmarking • De-bottlenecking Studies • Turn-Around Support

AEWA's Energy & Industrial Project Phases Support

Engr. Kayode Akiode
Technical Director

Engr. Kayode AKIODE (FNSE) is AEWA's Technical Director. In this role, he is responsible for the management of the Project Delivery and Technical Solutions business unit created to complement and respond to Clients' urgent Productivity Improvement requirements. He holds a Bachelor's Honours degree in Civil Engineering and a Master's degree in Engineering Management. He is a Fellow of the Nigerian Society of Engineers as well as COREN Registered Engineer (R7745). He possesses over 30 years' experience in Project Management comprising Engineering Design, Construction, Installation, Hook-Up and Pre-Commissioning in Onshore, Swamp, Conventional and Deep Offshore locations.

Actively involved in the project execution and delivery of landmark major Oil & Gas projects, including but not limited to Amenam-Kpono Phase 2, Amenam-Kpono Early Water Injection Project, OML58 Upgrade Project, OUR/NOPL Pipeline Projects, Egina Project, etc, amongst others.

He has proven experience in both local and international settings, good management skills and astute communication/reporting capabilities. Has a very remarkable performance interfacing with Government Regulatory Agencies. He has extensive experience and an impressive network spanning both Oil & Gas as well as in Civil Engineering projects.

An alumnus of the prestigious Institute Francais du Petroles (IFP). He is fluent in both English and French.

Engr. Adebisi OTUKOYA
Executive Director

Adebisi OTUKOYA is AEWA's Executive Director. He joined the AEWA Board in April 2020. A Senior Oil & Gas Production Operations engineer with a wide range of hands-on experience in Oil Production, Gas treatment & conditioning processes. He holds a Bachelor of Science Honours degree in Chemical Engineering from the University of Lagos. He thereafter worked for ELF Petroleum Nigeria Limited as a Petroleum Field Operations Engineer and rose through the ranks occupying various strategic posts including Production Methods Manager, Field Operations Manager Amenam-Kpono, Manager Onshore Assets, General Manager Contracts & Procurement amongst others eventually occupying the position of Executive General Manager Technical Services before retiring from active service in September 2018.

Fluent (written & spoken) English and French languages and an extensive network within the Oil & Gas industry.

Alumnus of the Institut Francais du Petroles (IFP) and the Ecoles Nationales Supérieur et Moteurs (ENSPM). Over 35 years of experience in operations, technical support, auditing, corporate governance processes, supervisory execution and design roles in an international oil & gas company.

AEWA's Energy & Industrial Project Phases Support

Chris ENUMA (FNAPE) Subsurface Specialist Consultant

Chris ENUMA (FNAPE) is AEWA Subsurface Specialist Consultant. He is dedicated to the provision of Technical Solution to Indigenous Companies, Marginal Field Operators and IOCs for their needs in Geosciences and Exploration activities. He holds a B.Sc. (1984) degree from University of Benin and MSc (1987) degree from University of Lagos. He worked with "Western Atlas International" as Processing Geophysicist and later joined Elf Petroleum Nigeria Ltd, now "TotalEnergies Exploration & Production Nigeria Ltd" where he held several positions including leadership/ management's positions. He was Geophysics Operations Manager" for the Nigeria subsidiary, Reservoir Geophysicist and later became "Technical Studies Lead" in France in 2005. He was "Deputy General Manager, Geosciences & Reservoir" of USAN field Development Project (OML138). From 2015-2017 he became Regional General Manager Exploration, responsible for Nigeria, Equatorial Guinea, and Sao-Tome in TotalEnergies Group.

He retired from TotalEnergies on April 11th, 2023 as the General Manager in charge of Corporate Geosciences and Specialties, overseeing Geophysics Operations, Geosciences studies in the Nigeria subsidiary, ensuring technical quality, on appraisal, and development studies. In May 2022, he received an "Award of Excellence" during TotalEnergies celebration of 60 years anniversary of Operations in Nigeria. He has 35 years' experience in the Oil & Gas Industry.

He attended several technical trainings/ courses in Nigeria and overseas including Integrated Reservoir Management from the prestigious Institute Francais du Petrol (IFP). He is a Fellow of Nigeria Association of Petroleum Explorationists (FNAPE).

Engr. Don NJOKU Drilling & Wells Consultant

Engr. Don Njoku is a respected industry expert overseeing Wells Drilling, Re-entries, Workovers, and Performance at AEWA's Technical Support Business Unit (TSBU). A seasoned Project Management Consultant, he brings decades of experience in Drilling, Well Interventions, EPF, and Production Enhancement.

Don has 30 years of industry experience under his belt, beginning his career as a Drilling & Completion Methods Engineer with Elf Petroleum, Nigeria Limited back in 1997. He later became the Rig Supervisor, IBEWA Gas Field development drilling operations, delivering 7HP gas wells on a cluster. He was also the Senior Drilling Engineer on the Amenam-Kpono Field development project and later served as the Drilling Manager Amenam-Kpono Field development.

He served as General Manager, JV Drilling, Completions, and Wells Intervention at TotalEnergies EP, and held key roles as Drilling and Wells Manager in Total E&P Houston and Total S.A. Paris. There, he led field development planning, cost estimation, and drilling optimization for global subsidiaries.

He has extensive industry knowledge and was directly involved in Wells Productivity Enhancement as General Manager Operations of Conoil Nigeria Limited, where he was Responsible for all Drilling, Logistics and Well operations, Production Field Operations and Facilities Development in swamp and offshore locations.

He also served as Executive Director, Operations and Business Development, Tecon Oil Services Limited, Well Services Operations Management: Drilling / Workover Rigs, Hydraulic Work Over Units, Drill String Tools Rental, Tubular Running Services, Fishing Tools and Services.

Don is an alumnus of the prestigious IFP School (ENSM), France. He is fluent in English and French, and a member of both SPE and PETAN.

100

plate and angle rolls always
available and ready for delivery

300

plate and angle rolls
produced every year

10,000+

plate and angle rolls installed
worldwide

- DAVI manufactures the widest range of plate roll with 3 and 4 plate rolls from 2 to 6 meters width and from 6 to 400mm thickness.
- DAVI manufactures the widest range of angle rolls with beams up to 1,200 mm height, pipes up to 800 mm and flanges up to 600x200mm on edge.

AEWA is proud to be the sole representative for Nigeria

Our Competitive Advantage

Timely Statutory Remittances

We ensure prompt payment of all statutory remittances, PAYE, pension, insurances, WHT, etc., distinguishing us from competitors.

Timely Salary & Benefits Payment

Salaries are paid immediately upon receipt of timesheets from personnel.

Financial Capability

We have the financial strength to execute projects without delays.

Strong Client Collaboration

We maintain open communication and excellent business partnerships with our clients.

Qualified and Competent Staff

Our workforce comprises highly skilled professionals with decades of industry experience, ensuring quality service delivery.

Competitive

We deliver exceptional quality and value, providing top-notch service while staying mindful of your budget to maximize your return.

ISO Compliance

Our certifications reflect our commitment to quality and reliability.

Technology

We've invested in software to streamline our processes, manned by our trained and experienced staff.
